Education

FEU Institute of Technology — Sampaloc, Manila
Bachelor of Science in Computer Science, Major in Software Engineering — 2023 – 2027 *(Expected)*
Thesis: PixelDerm: A Multi-Algorithm Framework for Longitudinal Monitoring and Analysis of UV-Induced Skin Damage

Projects

PixelDerm – A mobile app for long-term skin monitoring against UV damage
Lead Researcher | UI/UX Designer

- Led the research and development of PixelDerm, an Android-based multi-algorithm framework for skin monitoring
- Designed and prototyped the user interface and user experience (UI/UX) in Figma

StudyClick – A website that turns PDFs into reviewers
UI/UX Designer | Full-Stack Developer

- Developed both front-end and back-end of StudyClick
- Uses Google Gemini API to generate reviewers
- Utilized Figma to design the UI/UX

Signal no. 5 – A local AI-powered typhoon survival simulation game built in under 24 hours
UI/UX Designer

- Designed and prototyped the UI/UX for a disaster management game built in under 24 hours
- Designed interactive gameplay elements for home preparation, storm tracking, and emergency decision-making

TomoNook – Tomato-themed website for tracking tasks, activities, mood, and time
UI/UX Designer | Full-Stack Developer

- Developed both front-end and back-end of TomoNook
- Designed and prototyped the UI/UX using Figma
- Drew assets by hand using Procreate

Experience

FEU Tech ACM Student Chapter — Sampaloc, Manila
Junior Officer – Externals Committee — *November 2024 – July 2025*

- Sourced, contacted, and confirmed guest speakers for the event
- Managed email correspondence with external partners and speakers, tracking responses and follow-ups
- Organized speaker and communication records to keep the committee's outreach on schedule

Awards

Department of Science and Technology — Science Education Institute — Taguig City, Metro Manila
DOST-SEI Undergraduate Scholarship (Merit) — *Awarded in 2023*

Skills & Interests

Languages: JavaScript, TypeScript, HTML, CSS, Python
Frameworks & Libraries: React, Node.js
Version Control & Collaboration: Git, GitHub
Design & Prototyping: Figma, Canva
AI-Assisted Development: Claude, Gemini, ChatGPT
Productivity: Google Workspace (Docs, Sheets, Slides, Drive, Calendar)
Communication: Strong written and verbal English and Filipino
